WEBSITE PROGRAMMING

Instructions

Complete all tasks below.

Duration: 3 Hours
Total Marks: 100 Marks
Examination Type: Practical
Top: *Introduction to CSS*

QUESTION

Assume that you have been appointed as the **new Head Teacher of KY Day and Boarding Primary School.**

The school administration wants to improve the school's international image and attract pupils, parents, teachers, development partners, and visitors from Uganda and other countries.

You have therefore been assigned to design and develop a **professional, attractive, responsive school website** using **HTML and CSS**.

The website should communicate the school's identity, academic programmes, facilities, activities, achievements, and contact information.

TASK

Create a complete school website for **KY Day and Boarding Primary School – Masaka**.

Your website must contain the following main pages:

1. **Home**
2. **About Us**
3. **Academics**
4. **Gallery**
5. **Contact Us**

You may use additional pages or sections where necessary.

NOTE

- Use **HTML5**.
- Use **external CSS**.
- Use meaningful HTML tags.
- Create working navigation links.
- Use at least one HTML table.
- Use at least one HTML form.
- Use at least one HTML video.
- Use images appropriately.
- Use CSS Grid or Flexbox.
- Make the website responsive.
- Use appropriate headings and paragraphs.
- Maintain good file organization.
- Ensure the website has a professional school identity.
- Avoid excessive use of inline CSS.
- Test all pages before submission.
